

Berkeley Stainless Fittings Ltd

**Job Title: Quality Manager**

Location: Based over 3 sites (Bristol x 2 and Melksham)

About Us: Berkeley Stainless Fittings Ltd is one of the UK's largest independent stockists of hygienic stainless steel tube and fittings. We offer all forms of fabrication and processing to many industry sectors including - food/beverage, semi-conductor, construction, and power distribution. With recent investment in state-of-the-art equipment, we provide unparalleled customer service. Please refer to our website: [www.berkeleystainless.co.uk](http://www.berkeleystainless.co.uk)

**The Role:**

The successful candidate will be responsible for managing the quality and reliability of our parts and products through the development and implementation of quality control processes and systems. You will work directly with the senior management team as well as departmental managers to raise quality standards and improve the production process. This is a fantastic opportunity for the right candidate.

**Key Duties and Responsibilities:**

- Audit and monitor production to ensure customer specifications and industry standards are met.
- Monitor and test product quality across sites to ensure compliance with agreed standards.
- Conduct thorough inspections throughout the entire production cycle to identify any malfunctions and implement solutions to improve performance.
- Undertake inspections, implement quality control measures, and identify areas for improvement.
- Create a robust system for checking 'Goods In' and train on-site teams in the process.
- Assist with any customer complaints to ensure customer expectations are exceeded.
- Link all documentation with our existing ISO9001 processes.
- Produce a regular Quality Management Report outlining any identified issues and solutions.
- Provide support to staff on quality control processes, procedures, and tools.
- Ensure processes are adhered to so all machinery and tooling is fit for purpose.
